

# Nash\* Remanufactured Liquid Ring Vacuum Pumps

**Performance Guarantee: 2 years defects & 90% of OEM performance**

## Overview

NES Company and its staff have been rebuilding NASH liquid ring vacuum pumps and compressors for over 25 years. Our staff and technicians have decades of field and shop experience with NASH brand pumps so you can be confident that your rebuild we perform like new. We have an extensive inventory of NASH SC and CL series vacuum pumps so we can deliver a replacement pump or build a skid mounted system within a few days. We stand behind all remanufactured pumps with a 2 year warranty against defects and performance.

## Program Features

- 2 year warranty against all manufacturer's defects.
- 90% of OEM airflow based on factory performance curves.
- Many pumps available to ship from stock within 1 week or less.
- Specializing in all NASH brand vacuum pumps & compressors.
- Extensive inventory of NASH SC and CL series inventory.

## Remanufacturing Process

- Disassemble & sandblast
- Clad cones with 316 SS or replace with new as necessary
- Weld & re-machine rotor tapers
- Replace rotor and shaft with new assembly if necessary.
- Machine and match fit cones to rotor and set clearance tolerances.
- Replace bearings, seals, slingers, gaskets, and piping.
- Repair by welding and remachining or replace rotor shaft as necessary.

\*Nash is a registered trade mark of Gardner Denver Nash. NES Company Inc. has no affiliation with Nash, Nash Engineering or Gardner Denver Nash. The information contain herein is provided as a convenience and for informational purposes only. Performance data are subject to manufacturing variation and test conditions including but not limited to atmospheric pressure, ambient temperature, seal fluid temperature, tolerances, and materials of construction. Performance of pumps constructed fully or partially of stainless steel may be lower due to larger clearance settings. This information may contain inaccuracies, errors or omissions. All NES Company Inc. supplied products and recommendations or suggestions must be evaluated by the end user to determine applicability and suitability for any particular use. See NES Company Inc. terms & conditions of sale for additional details which may also apply.
